Cooperative Learning Project

Key Stage 3 Geography

Our Cooperative Learning Projects help you to become rounded, balanced learners. Growing your independence and self-management, our projects also reflect our College cooperative ethos. Each project will focus on one or more of our cooperative values: Democracy, Equity, Self-responsibility, Self-help, Equality and Solidarity.

Project Title

A Sustainable Transport Future for Totnes

Project Brief

Traffic in and around Totnes is a current issue facing our local community. Recent changes to the traffic system have affected many local interest groups. Air pollution and congestion is a national problem that is becoming more and more serious. As a Transition Town, should we be doing something different with our transport network?

Find out what local stakeholders (e.g. retailers, homeowners, businesses, councillors, MPs, community groups) think about transport in Totnes. What do they want to see change? How green is the current transport network? Is there a future that will please everyone? How can sustainability be achieved? Could a car-less future be an option? What do you think should happen in our town?

Learning Skill(s) developed
