

Student editor Karli Rose in Year 12 writes:

As we venture into summer, there are many exciting things that we have to share with the community that have been going on at KEVICC, the most regular and daunting of which is most probably the exam season which has just finished. We are all wishing the best of luck to our GCSE and A level students who will be awaiting the results day in August with anticipation.

Among the many amazing projects which we have had running is the Hope not Hate campaign, lovingly guided and managed by our own Psychology teacher, Phillipa Hurst, who has got our involvement in awareness of the refugee crisis; she and all the rest involved have put in an outstanding effort to make it what it is.

As well, I am sure that you have all heard of the results of the EU referendum and am pleased to say that our students took an active part in this topical issue, hosting a debate in the theatre in which it was brilliant to watch them all debating their points so eloquently. This shall be an exciting time for all of us as Britain takes its next steps into its new relationship with Europe.

Another big thank you to Isabella Hayden who organised and ran a fund-raising stall for Water Aid, a magnificent and noble accomplishment on her part. And, finally, a big congratulations to Heidi Wakely who has impressed us all with her Robin Hood style talent. Until the next time.

## Hitting the target:

written exams are all over; practical exams have been assessed and moderated; and year 11 and 13 students are no longer in College – are now embarking on the next chapter in their lives (whilst Results Days in August are always at the back of their minds!).

involved in, and both gaining promotion.

To find out more about Archery club, please see any member of our PE department.

Throughout the year, as students and staff go home, Totnes Archers set up their targets on the field and invite students to join their sessions.

Student Heidi Wakeley has become one of the two highest scoring girl archers in Devon and Cornwall. They represent Totnes Archers but both have excelled in their own right. Heidi is one of the founding members of Totnes Archers and has competed for Totnes since 2012. She has set county records for both Barebow and Longbow during her shooting career; her latest glory being top score for the junior barebow category in the Devon & Cornwall winter leagues. The two senior Totnes teams topped both divisions that they were

# Help us spread the message of

HATE CANNOT  
DRIVE OUT FEAR-  
ONLY LOVE CAN  
DO THAT.

Love is a better  
motivator than  
fear

There was an amazingly positive response to recent events from students with a 'Hope not Hate' boat and display in the College – the boat itself, and its messages, were part of a Totnes Citizenship refugee awareness event, which, at the suggestion of students, was extended to include deeply-felt messages after the murder of MP Jo Cox. Students were invited to choose an origami flower; write a message of hope on it and then to place it in the boat. It has been suggested that the boat moves on from school to school around the country, eventually making its way to Jo Cox's constituency. It leaves us to go to Dartington Primary, and then to another school in Cornwall next week. This has been a very positive message in difficult times.

Compiled by our Press Team

Isabella Hayden in year 9 recently gave students and staff and students an amazing selection of home-cooked biscuits and buns to choose from when she organised and ran a fund-raising stall for Water Aid.

Year 10 students at the National Theatre to see *The Threepenny Opera* by Brecht & Weill

KEVICC staff and students are always really grateful to our Parents' Association for their generous funding of requests for additional money to be spent on enhancing the curriculum – and also of the huge amount of time and effort put into planning events that generate the money available.

Recently, several requests were approved:

- £125 for PE for swimming lessons for years 9 & 10
- £330 for Geography for a drone & underwater camera
- £840 for Science for ten rockets
- £174 for Design & Technology towards the purchase of moveable and programmable computer balls

Millie Harris of the Geography Department said a very big thank you to the Parents' Association for the grant for additional fieldwork equipment. The Field Studies Council, Geographical Association, Ordnance Survey and Royal Geographical Society are hosting year 2015-16 as the 'Year of Fieldwork'. Following curriculum changes, students now have to conduct fieldwork frequently.

The Parents' Association money has been used by the department to buy a drone and GoPro camera, in order to conduct contemporary fieldwork methodologies, such as aerial mapping and personal ethnographies. This will allow students to have an opportunity to see Geography in action. They are very excited about using the new equipment this term.
