

Kennicott

Recently, we held our annual Kennicott Open Evening, when we welcome students both from year 11 at KEVICC, and also students from other Colleges, to come and meet us and to consider joining us next September. We offer courses ranging from challenging academic subjects at the highest level to our collaboration with Plymouth Argyle on their Football Development Programme.

This is designed to combine with academic studies, giving students the opportunity to gain high quality coaching, and enhanced experiences, with a local professional Football team. It shows students the day-to-day workings of a professional club; develops their Football skills and provides work experience placements and visits to gain an insight into potential careers in Sport and Football. The programme forms one of the options that students can take at Sixth Form alongside their academic studies and is suited to anyone who enjoys playing Football; would like to develop their skills and potentially wants to pursue a career as an elite player or part of a professional club.

Matt Swiss, then at Kennicott, was one of twelve students in the country selected last year to attend the final weekend of the Great Britain trials for Rowing. He went on to be selected as one of six students as the Junior Worlds team, who then trained in Manchester for a few weeks prior to flying out to Rio to compete for the GB rowing team! He worked so hard to achieve this training, and balancing his work at school, so well – he was an amazing student!

Tilly Coulton, seen here busking at KEVICC in aid of Children in Need, has taken the Associated Board of the Royal Schools' of Music Grade 8 flute exam whilst at Kennicott, and is now studying for an ABRSM Diploma. She is currently auditioning for a place at a specialist Music College or Conservatoire, and will hear soon if she's been successful.
