

Now you don't have to choose between starting your career or studying towards a degree. At Morrisons, we are giving hard-working school and college leavers the chance to have the best of both worlds.

Our Manufacturing Degree Apprenticeships allow you to work towards a degree while preparing for a brilliant management career within our unique food retail business.

Not only do we pay all your course fees for you, but you also get to work and earn a salary while you're studying – so money is never a concern.

Manufacturing

We're the UK's 2nd-largest fresh food manufacturer and that puts our manufacturing team right at the heart of our business. Along the way, you'll learn how to run production lines and lead production teams while getting to grips with a wide range of manufacturing equipment, processes and technologies.

Achieve a valuable degree

While you're working with us, you'll also be studying towards a Bsc (Hons) Management and Business at the University of Bradford.

Balancing work and a degree course will be challenging. But we'll offer you at least half a day leave a week to concentrate on your university studies.

And, in return for your hard work and determination, you'll gain full chartered membership of the CMI (Chartered Management Institute).

What you'll need to join us

We're looking for resilience, determination and good leadership skills, along with the flexibility to meet the changing needs of our business. You'll also need a minimum of 104 UCAS points (based on the new UCAS tariff or 260 based on the old tariffs).
